NEW 'Soto' a colour changing Ultrasonic Aroma Diffuser from Made By Zen

Made By Zen Ultrasonic Aroma Diffusers offer a range of benefits over traditional methods of home fragrancing:

- **Incredibly easy to set up and use**– simply fill with water and add a few drops of essential or fragrance oil and switch on.

- **Advanced ultrasonic technology** which utilises **high frequency vibrations** creating a fine scented water mist without the need for a heat source.
- **Easy to clean and maintain** – wipe with a soft clean cloth after use.
- **A wide selection of models** in the range all offering **high-end design and style**.
- A patented **automatic shut off** installed across the range, offering invaluable peace of mind.
- **Wide range of uses** from home fragrancing to aromatherapy, as a **mini humidifier** with **air purifying properties** or as a nightlight. Known to **soothe allergies** and other minor ailments.
- **No heat source**, so safe for use around children and pets.
- **More economical and safer** than candles – no flame and no smoke.
- **Natural and pure** method of fragrancing, essential oils also have their own proven health benefits.
- **Soft LED lighting** – The **newly released Soto has a mood light feature** and the option to select your favourite colour, as well as a 'no light' mode.

A selection of Fragrance Oils from Made By Zen

Made By Zen Ultrasonic Aroma Diffusers can be **used with any essential or fragrance oil**, so you are free to tailor the aroma depending on your mood or the season.
