**Congratulations on purchasing the
madebyzen™ Opus 2 Aroma Diffuser.
Please keep this manual for further
reference and maintenance.**

ABOUT THE OPUS 2

Allow yourself to embark on your day in a calm and relaxed frame of mind and experience a sense of general well-being as a result of a gentle awakening.

Imagine waking up steeped in your favourite fragrance, surrounded by soft mood lighting. What better way to start your day. The Opus 2 Aroma Diffuser does just this and much more. It fuses innovative technology with the ancient practice of aromatherapy, mimicking a more natural wake-up pattern, incorporating mood lighting and touch button technology.

This elegantly shaped Aroma Diffuser with built in Digital Clock is beautifully presented with easy to use features. The refraction of the mood light changes through the spectrum of colours which are stylishly projected from the top. Another invaluable feature of the Opus 2 Diffuser is the ability to control the misting with a 30, 60, 120 and 180 minute setting, ideal for use with stronger scents, during meditation, aromatherapy treatments or even drifting off to sleep!

The Opus 2 Aroma Diffuser may be used at night with or without the light, a dream bedside companion which will also awaken your senses and consciousness in the gentlest of manners when you need to start the day.

Simply add tap water and a few drops of your favourite fragrance or essential oil into the Opus 2 Diffuser, and it will, with the press of a button, instantly release a cool fine mist of scented vapour into the atmosphere to stimulate your senses and enable you to sink into a relaxed world of healing and self-balance. This is believed to be the best way to diffuse any fragrance into the atmosphere, as without direct heat, essential oils are not degraded.

The Opus 2 Aroma Diffuser automatically shuts-off when the water falls below a certain level, effecting complete safety and ideal for use around children or pets.

madebyzen™ is a British brand with inspired designers who are constantly refining and creating new products, which meet the highest quality standards and are globally coveted.

Thank you for purchasing the madebyzen™ Opus 2 Aroma Diffuser.

FEATURES

Touch Button Technology – As soon as you power up the Opus 2 Aroma Diffuser, the panel will light up with LED indicators, which operate through advanced touch button activation.

Aroma Diffuser – Enjoy the ultimate aromatherapy experience from this little sleek device using your favorite Fragrance or Essential Oil. The Opus 2 uses advanced Ultrasonic technology which produces vibrations at high frequency turning the water and oil into a fine mist, creating a soothing and therapeutic atmosphere, without a heat source.

Humidifier – used with or without fragrance or essential oils, you can still enjoy the health benefits of the humidifying mist, which is ideal for counteracting some of the dryness created by today's central heating and air conditioning systems.

Mood Lighting – The soft color changing LED lighting creates a wonderful ambience in your living space. The LED's will softly emit a symphony of colour changing lights from the top of the diffuser to enhance your mood.

Time Display – The Digital Clock LED time display above the touch control panel, brings convenience and efficiency to your life.

Alarm Clock – Awaken to your favourite scent and Mood Lighting with the Alarm Clock feature. A soft beep will be heard during Alarm activation.

Scent Timer – The Timer can be set to 30/60/120/180 minutes. The Opus 2 will stop automatically at the end of the time cycle. This function allows you to select a timed cycle for diffusing scent when required.

TECHNICAL SPECIFICATION

Product name: **Opus 2 Ultrasonic Aroma Diffuser with Alarm Clock**

Model No: **EW9970**

Input voltage: **AC: 110-240V, 50/60Hz DC: 24V**

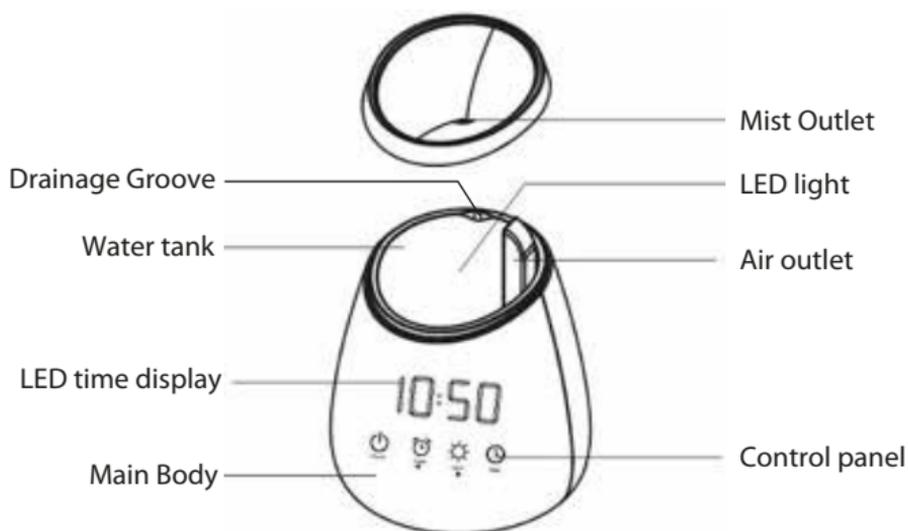

Water tank volume: **150ml**

Rated power: **12W**

Dimension: **138x138x162mm**

Net weight: **0.46KG**

Coverage Area: **15m² (approx.)**

IMPORTANT NOTES BEFORE USE:

1. Place the Aroma Diffuser on a flat surface, at least 60cm away from the floor and at least 10cm away from the wall. DO NOT place the Aroma Diffuser on wooden or polished furniture that may be damaged by water moisture.
2. Always unplug the Aroma Diffuser from the mains electrical supply when cleaning or filling with water. Always use the power adaptor supplied. Ensure the cable is secure to avoid tripping or knocking over the Aroma Diffuser. If the power adaptor is damaged, it must be replaced with a suitable adaptor provided by the manufacturer or its Agent. Alternatively, a new adaptor can be purchased from your retailer.
3. Use a suitable measuring cup to fill water into the water tank. Never attempt to fill water under a running tap or whilst plugged in. Do not fill the water beyond the MAX level mark of the Water Tank. The Aroma Diffuser will not work if filled beyond the MAX level mark. Carefully remove the excess water from the tank, if overfilled from the Drainage Groove – away from the Air Outlet.
4. The Aroma Diffuser must be kept out of reach from children and pets to avoid risk of injury. Children should be supervised at all times to ensure they do not play with the appliance.
5. The Aroma Diffuser is not intended for use by persons (including Children) with reduced physical, sensory or mental capabilities or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
6. Keep the diffuser in clear space to allow the mist to freely spread and away from appliances especially those sensitive to water to avoid unnecessary accidents.
7. The Aroma Diffuser must be kept clean and dry when not in use. Never leave stagnant oil and water in the tank for prolonged periods.
8. Never attempt to disassemble your Aroma Diffuser or repair the product, as this will void your warranty and create a shock hazard. Contact your retailer if an internal inspection is required.
9. In case of abnormal observations such as smoke, peculiar smells or noise, stop using the Aroma Diffuser immediately to avoid the risk of an accident such as fire or electric shock. Unplug the Aroma Diffuser immediately and contact the retailer from where you purchased the Aroma Diffuser. Never wrap the adaptor with cloth or paper as blocking ventilation could increase the risk of fire.
10. Always handle the Aroma Diffuser with care – accidental damage is not covered under the warranty.
11. Always use water at room temperature and use only fresh, clean water from a reliable source.
12. Always plug the adaptor into the DC Jack before plugging into the mains.

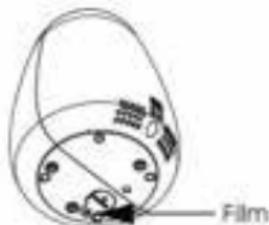

OPERATING INSTRUCTIONS

DO NOT attempt to fill water into the diffuser from the top opening. Always remove the cover before filling the Water Tank.

Remove the film before operating.

1. Take off the cover

2. Use a suitable measuring cup to add water into the water tank. DO NOT fill the water beyond the MAX level mark. The Diffuser will not work properly if water is filled beyond the MAX level.

3. Add 3-5 drops of your essential or fragrance oil

4. Replace the top cover.

5. Connect the power with plug. Insert the DC Jack into the Aroma Diffuser before plugging into the mains.

SETTINGS

POWER: Press the  to Turn ON and Turn OFF the Aroma Diffuser. The LED light will turn from Red to Green to indicate when the Aroma Diffuser is ON.

ALARM CLOCK: To turn ON the Alarm Mode – Press the  once. The LED light will turn from Red to Green to indicate the Alarm Function is ON.

Press the  once again to deactivate the Alarm function. The LED light is Red when the Alarm function is OFF.

SETTING THE ALARM TIME: Hold down the  button for a couple of seconds to enter the Setting Mode for the Clock. You will hear a short beep to indicate when the Setting Mode is on and the LED Time panel will start to flash.

Use the  to set the Minutes and use the  to set the Hours, whilst the LED display is flashing.

Once you have selected the correct Alarm Time – the LED display will continue to flash for a few seconds and will automatically revert back to the Time display.

Or press the  for a couple of seconds to confirm the Alarm Time. Once the Alarm Time selected has been reached, the Opus 2 will beep softly for around 60 seconds and the Aroma Diffuser and Mood Light will be simultaneously activated.

After 60 seconds the beep sound will stop and the Aroma Diffuser and Mood Light will continue until switched off or until the water level runs low.

If there is no water inside the Aroma Diffuser, it will automatically enter into standby mode. NOTE: Even if there is insufficient water inside the Water Tank, once the Alarm time is reached the Alarm will be activated and a soft beep will be heard for around 60 seconds. The Aroma Diffuser and Mood Lighting will not activate unless there is sufficient water inside the Water Tank.

MOOD LIGHT MODE: Press the  to turn ON and OFF the LED Mood light. The Lamp Button will turn from Red to Green to indicate when the Mood Light function is ON.

The Mood Light will only operate with the Aroma Diffuser and when there is sufficient water inside the Water Tank. This is a safety feature and is normal.

Press the  again to switch off the Mood Light.

When the Mood Light function is ON, the LED lights inside the water tank will gradually change through a spectrum of colours.

SCENT TIMER: Touch the  to set the Scent Timer. Touch the button repeatedly to change the Scent Timer setting or to turn it OFF. The timer order is: 30, 60, 120, 180 Minutes and OFF.

Note: This function will not operate without sufficient water inside the Water Tank, as the Aroma Diffuser will enter Standby mode once the water level runs low.

SETTING THE TIME ON THE CLOCK: Hold down the  for a couple of seconds to enter the Time Setting Mode for the Clock. You will hear a short beep to indicate when the Setting Mode is on and the LED Time panel will start to flash.

Use the  to set the Minutes and use the  to set the Hours, whilst the LED display is flashing.

Once you have selected the correct Time – the LED display will continue to flash for a few seconds and will automatically revert back to the Time display.

Or press the  for a couple of seconds to confirm the Time.

NOTE: Times are set using the 24 hour clock system. For example 1pm will display as 13:00hrs

MAINTENANCE

1. Turn the device OFF and unplug the unit from the electrical outlet. Then lift off the top cover.

2. Drain and rinse the water tank thoroughly to remove any sediment and dirt. Wipe clean and dry with a clean soft cloth or paper towel.

3. Using a soft clean cloth, thoroughly clean the inside of the Water Tank. Use a swab to clean the surface of the disc area. Always keep the Aroma Diffuser clean and dry when not in use.

TROUBLESHOOTING

Symptom	Possible Cause	Solution
No mist or mist volume reduced	Power supply is not connected	Plug the power adaptor in and press the Power Button.
	Insufficient water	Refill the tank with ordinary tap water.
	Water is exceeding the max. water level line	Carefully pour out the excess water.
	There is a build-up of oil on the ceramic disc.	Please refer to the instruction manual on how to clean the unit.
	Cover is not positioned properly	Ensure the cover is positioned properly on top of the Aroma Diffuser.

The intensity and amount of mist produced may vary, but this is not unusual and should not be considered as a fault. Factors that affect this include water type, humidity, temperature, air currents etc.

IMPORTANT!

In accordance to WEEE Directive (Waste from Electrical and Electronic Equipment Directive) 2002/96/EC this equipment should not be disposed of in the normal waste stream.

Corrosive oils such as Citronella may cause damage to the unit if left in the reservoir. This type of damage is not covered under the warranty.
