BLOOM
Aroma Diffuser
Create a cool, scented and relaxing mist
Congratulations on your purchase of the madebyzen™ Bloom Aroma Diffuser. Please keep this manual for further reference and maintenance.
ABOUT THE BLOOM
There is a brief moment where time stands still as buds burst forth and bloom, emerging into profoundly beautiful flowers, bursting with fragrance and colour. Their petals delicately open and close with the gradual transition of dawn to dusk.

The Bloom Aroma Diffuser is the perfect way to enliven your home with fragrance, colour and light.

Modern, ultrasonic technology is used to diffuse tap water and fragrance or essential oil, into the air in a plume of fine mist and fragrance, calming the mind, body and soul.

The Bloom offers visually stimulating light which transitions from a bright striking glow to a subtle soft illumination.

This Aroma Diffuser also allows you to pause the light on the intensity of your choice, whilst also offering a no light mode. Perfect for use at night time.

Additional features include an intermittent mist setting, making the Bloom Aroma Diffuser ideal for use with stronger scents. Alternatively, there is a no mist option, which allows you to enjoy the light feature.

Thank you for purchasing the madebyzen™ Bloom Aroma Diffuser.
SPECIFICATION

Product Size: φ152 x 237mm
Voltage: DC 24V
Power: 12W
Water Capacity: 200ml

1. Cover
2. Max. water level line
3. Vent hole
4. Water tank
5. Mist outlet
6. Water discharge groove
7. LED lighting functions
8. Mist functions
9. DC Jack
10. Adaptor
OPERATING PROCEDURE

IMPORTANT NOTES BEFORE USE:

Place the Bloom Aroma Diffuser on an even surface.

Always fill with room temperature tap water.

If the unit is knocked over during operation, the liquid may spill out and enter the mechanism. In the event of this happening, unplug the power and empty the water.

Let the unit stand for at least 3 days to dry.
1. Remove the cover

2. Fill the water tank with tap water, up to the indicated fill line. Never attempt to fill the aroma diffuser directly under the tap, always use a suitable filling cup.

3. Add 3-5 drops of your favourite fragrance or essential oil into the water.
4. Replace the cover.

5. Plug in the adaptor and press the button to turn on the Aroma Diffuser.
**Button controls**

💡 **Mist control:**
Press the mist button once to turn on the mist function. The Aroma Diffuser will now be in intermittent mode. In this mode the mist will turn on for 20 seconds and then turn off for 40 seconds. An ideal setting for stronger scents.
Press the mist button once more to set the Aroma Diffuser to continuous misting.
Press the mist button again to turn off the mist feature completely.

💡 **Light control:**
Press the light button once to turn on the LED lights. In this mode, the intensity of the light will gradually change from a bright striking glow to a subtle soft illumination.
Press the light button again to set the Aroma Diffuser to your preferred intensity choice.
Press the light button once more to turn the LED lights off completely.

**Note:**
Take care not to tilt the Bloom once you have filled it with water. It must be kept level to avoid spillage of water, which could damage the unit. Do not attempt to refill the Bloom with water while it is switched on or plugged in.
MAINTENANCE

1. Press the button until you have reached the ‘mist off’ setting. Unplug the adaptor.

2. Remove the cover
WARNING: Do not empty water from the vent hole

3. Empty the water via the water discharge groove.

4. Use a clean swab or cloth to clean the unit.

WARNING

In case of any abnormal observations such as smoke, peculiar smells or noise, stop using the unit immediately to avoid the risk of an accident such as fire or electric shock. You should unplug the adaptor immediately and contact your local dealer. Never wrap the adaptor or Aroma Diffuser with cloth or paper, as blocking the ventilation could increase the risk of a fire.

Never attempt to disassemble or repair the product. In case of internal inspection or repair becoming necessary, please contact your local dealer. Please keep the product out of the reach of children to avoid risk of any injury. Your Aroma Diffuser should be cleaned regularly and kept clean and dry when not in use.

IMPORTANT!

In accordance to WEEE Directive (Waste from Electrical and Electronic Equipment Directive) 2002/96/EC this equipment should not be disposed of in the normal waste stream. Corrosive oils such as Citronella may cause damage to the ceramic disc if left in the reservoir when not operating the unit. This type of damage will not be covered under the warranty. This Aroma Diffuser must be cleaned after each use.
